ADHESIVADO

## ADHESIVE CHAMBER.

---

### Main Characteristics.

Gluing booth dimensions.  
Mixing chamber dimensions.

Custom.  
1700 x 1100 x 2300 mm.

---

### Booth.

Reinforced structural tubes and insulating panels.  
Filtering chamber.  
Pre-extractor filter cassette.

---

### Mixing Chamber.

Reinforced structural tubes and insulating panels.  
Folding doors closure.  
Work desk integrated.  
Forced air extraction.

---

### Pneumatic & electric

25L Stainless steel boiler.  
Pneumatic mixer with manual speed control, teflon coated bar and height adjustable of the mixing equip.  
Installation of manual valves to the different circuits.  
Electronic scale with visualizer and analog output for PLC connection (max. 100 Kg) PLC SIEMENS.  
Electrical cabinet with all security systems.  
Control box with all the buttons and SIEMENS KP 300 HMI.

---

### Water heater equipment.

Electrical Heater of 50 Litres.  
Hot water installation supporting to cleaning operations.

---

### Options.

Boiler.  
Scale.  
Mixer.
